Kind comments from families—

“Trusted professionals told me about HOME’s service. HOME exceeded my every expectation in finding a quality facility for my Mother. They then made the selection process easy with tailored options. In half a day I was able to tour five facilities, and using HOME’s facility checklist, was able to find the perfect match. I was impressed with their process, compassion, and courteous and expedient follow-up. I would highly recommend HOME to my friends and family.”

- William T.

“We were given complete information and the advanced calls to the facilities for prospective clients was very helpful. I liked the feeling that HOME was always a step ahead of everything and they were there when I needed them. Thank you so much!”

– Ed Webb

I didn’t know how or where to begin looking for a place. HOME was such an enormous help due to their compassion and knowledge of the different types of facilities. They genuinely care about their clients, rather than just running a business! They provide a great service in an often confusing and emotional part of life. I have recommended HOME to several people and will continue to do so whenever the opportunity arises.”

- Jan Meier

♥ **Family Support:**

We advocate that seniors stay in their homes until the home situation becomes unsafe or cost prohibitive. HOME is experienced in assessing when placement is necessary and recommends the best housing fit available for the level of care required. We are proud of our reputation for responding quickly in a time of crisis.

In the past, many seniors believed that a skilled nursing facility was the only option when they could no longer live at home. Today, there are many alternatives where seniors can maintain their independence, pride, dignity, and respect in a safe, non-institutional environment.

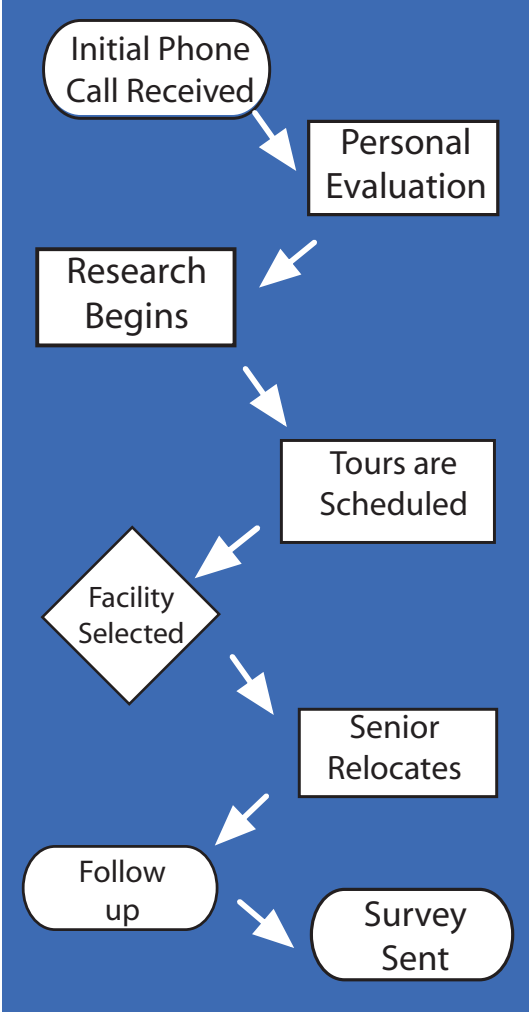

Let us help you explore the options and find appropriate housing that matches the needs based on location, level of care, and affordability.

♥ **Experience matters:**

HOME is locally owned and operated by Janet M. Kelly, a Gerontologist and Senior Advocate.

Janet has worked in the healthcare field since 1978, including a position as Director of Marketing for Home Health Care, which is where she discovered her passion for working with seniors. Janet obtained a degree in Gerontology and started HOME to work more closely with the senior population. Her own experiences of trying to find appropriate housing for her parents has helped her understand the importance of hands-on assistance during the process. Janet can empathize with decisions you face because she has faced them herself. She was there for both her parents while they experienced all stages of care.

♥ **Housing Options**

It is our goal to minimize the worry and distress you may be feeling as you prepare to search for a new home for a senior who is unable to stay in his or her own home. Our Gerontologist will meet with you and your loved one to assess the appropriate level of care based on medical conditions, mental capacity, mobility, and overall needs. Following in the next column provides a snapshot of housing options for seniors.
